

### Remarks

Claims 1, 63, 64, and 66-78 have been cancelled without prejudice to the filing of continuing applications. Claims 11, 12, and 65 have been amended. New claims 79-82 have been added. The amended and new claims are fully supported by the specification as filed. Claim 65 has been amended to recite the structure from original claim 1 and to modify the scope of disorders being treated. Claims 11 and 12 have been amended only to make them dependent on claim 65. No new matter is added by these amendments. With these amendments, the claims pending are claims 2-62, 65, and 79-82.

The claims as amended meet the requirements of 35 U.S.C. § 112. Specifically, the disorders listed in the claims are fully enabled by the specification. The claims do not encompass the treatment of Alzheimer's Disease and also are limited to the treatment of the specific sleep disorders recited at page 27, lines 27-32. That the treatment of these disorders is enabled by the specification seems to have been recognized by the Examiner in the Action.

Applicants respectfully request reconsideration and withdrawal of the rejection made under 35 U.S.C. § 112.

The Applicants urge the Examiner to contact the Applicants' undersigned representative at (312) 913-0001 he believes that a discussion would expedite prosecution of this application.

Respectfully submitted,
